Bishop Museum

Bishop Museum was founded in 1889 by Charles Reed Bishop in honor of his late wife, Princess Bernice Pauahi Bishop, the last descendant of the royal Kamehameha family. The Museum was established to house the extensive collection of Hawaiian artifacts and royal family heirlooms of the Princess, and has expanded to include millions of artifacts, documents and photographs about Hawaii and other Pacific island cultures.

Mr. Bishop built the magnificent Polynesian and Hawaiian Halls on the grounds of the original Kamehameha Schools for Boys. This school was established by Princess Pauahi to educate the children of Hawaii. The Museum was meant to augment that education and instill a greater pride in their Hawaiian heritage.

In the 1960's the school was relocated to a new campus, leaving room for the Museum to expand. The only school building that remains is Bishop Hall. All of the other buildings were built as part of the Museum.

Today, Bishop Museum is the largest museum in the state and the premier natural and cultural history institution in the Pacific, recognized throughout the world for its [cultural collections](#), research projects, consulting services and public educational programs. It also has one of the largest natural history specimen collections in the world.

Diamond Head Crater

The most famous volcanic crater in the world is Diamond Head, located on the South-east Coast of O'ahu at the end of Waikiki overlooking the Pacific Ocean. It was originally named Laeahi by the ancient Hawaiians. The name meant "brow of the tuna" and looking at the silhouette of the crater from Waikiki, you can see the resemblance. The current name came was given to the crater by British sailors in the 1800's. When they first saw the crater at a great distance, the calcite crystals in the lava rock appeared to glimmer in the sunlight. The sailors mistakenly thought there must be diamonds in the soil. Diamond Head is a volcano that has been extinct for 150,000 years. The crater is 3,520 feet in diameter with a 760-foot summit.

Useful Information:

- Diamond Head Trail is 1 $\frac{3}{4}$ miles to the rim and takes about $\frac{1}{2}$ hours. Go early in the day to avoid the heat - there is NO shade! Bring water and a flashlight (for the tunnel)

A blowhole is a lava tube under the water and at the perfect height for waves to be driven into it. Be extremely cautious around the blowhole.

Iolani Palace (Honolulu)

Iolani Palace was built under the direction of King David Kalakaua. Completed in 1883, the palace is a treasury of the history of Hawaiian monarchy. Also worth a visit are the Queen Emma Summer Palace in Oahu's Nuuanu Valley and Hulihee Palace in Kailua-Kona on the Big Island. These served as royal retreats; Hulihee is the oldest of the three.

Tours of Iolani Palace -- a jewel that has been lovingly restored to its original regal luster -- are given Tuesday through Saturday. A 45-minute guided tour gives you a glimpse of the grand days of Hawaii's monarchy. You pitch in by wearing fabric booties and "polishing" the floors as you tour the palace. www.iolanipalace.org

Honolulu Zoo

Over 750,000 people visit the Honolulu Zoo annually. It is the largest zoo within a radius of 2,300 miles and unique in that it is the only zoo in the United States originating from a King's grant of royal lands to the people. King David Kalakaua, Monarch of Hawaii from 1874 to 1891, made lands of the Leahi Land Holdings available in 1876 to the people for a thirty year lease. That year, a "Kapiolani Park Association" of two hundred subscriber members assumed the administration of the three hundred-acre park. The marshy parcel was a muddle of fishponds, lagoons and islands where King Kalakaua maintained his collection of exotic birds. In 1877 the area was named after the King's wife and opened as Queen Kapiolani Park. www.honolulu zoo.org

Luau's

The spirit of Aloha flows more at a luau that anywhere else in Hawaii. The luau is a celebration of family, food, and togetherness. Usually held at sunset next to the ocean, the luau includes an all-you-can-eat buffet, Hawaiian dancing, and Polynesian entertainment. Traditional food consists of kalua pork, steak, chicken, fish, vegetables, rice, and tropical fruits. The most popular luaus on O'ahu are The Royal Hawaiian Hotel (Monday's and Thursday's), Germaines, Paradise Cove, and the Polynesian Cultural Center. We have been to them all and think the The Royal Hawaiian is the best, but also the most expensive.

North Shore

The North Shore is home to some of the world's finest beaches and bays. During the winter months, the swells at world-famous surf spots Waimea Bay, Pipeline, and Sunset Beach reach 30 feet or more. That's when professional surfers and fans descend on Hale'iwa and the North Shore. The water is calm during the remainder of the year and perfect for swimming, snorkeling and diving. The North Shore's white-sand beaches, crystal-clear water and romantic sunsets can be enjoyed year round. www.gonorthshore.org/visitor_beaches.htm

Pali Lookout (Nuuanu Pali)

The Nuuanu Pali Lookout, overlooking the 985 foot cliffs of the Koolau Mountain Range, is one of the best views on O'ahu. It was here in 1795 that King Kamehameha and his warriors defeated the O'ahu armies by sending them over these steep, forested cliffs and claiming his victory and uniting the Hawaiian Islands. The breathtaking sight and the gruesome history of the battle fought here is enough to cause a chill to run up your spine.
